

BlueMissionMed National HUBs in action

Mobilising stakeholders from Türkiye towards the implementation of transformative innovative solutions for the EU Mission Ocean and Waters within the Mediterranean basin

Date: Monday, June 10, 2024 **Time:** 13:50-16:45 (GMT+3, TR Time)

Event Language: Turkish-English (There will be a Turkish translation for English presentations)

Location: Online (Link will be shared with participants after registration)

Context	The BlueMissionMed National HUBs are Territorial Multistakeholder Communities which implement the activities and priorities of the BlueMissionMed project in alignment with the overarching EU Mission Restore Our Ocean and Waters. Their core role is to facilitate and support individuals and organizations by engaging private and public actors, experts, and institutions, facilitating knowledge exchange and playing a pivotal role in providing them with the necessary content and expertise, empowering participants to develop and implement their ideas effectively. Between May and June, BlueMissionMed is organizing a set of events, in collaboration with the French, Greek, Italian, Maltese, Spanish, Tunisian and Turkish BlueMissionMed National and Regional HUBs.
Objectives	 Showcase and demonstrate selected transformative innovative solutions according to the EU Zero Pollution Hierarchy, to prevent and reduce pollution across the Mediterranean Sea and waters; Collect stakeholders' feedback and inputs on selected transformative innovative solutions; Facilitate the solutions' adoption and implementation with the aim of achieving the EU Mission objectives.
Organizer	BlueMissionMed https://bluemissionmed.eu/ The EU-funded BlueMissionMed project, aimed at supporting the implementation of the EU Mission Restore Our Ocean and Waters, is committed to empowering all the actors that can take a role in preventing and eliminating pollution in the Mediterranean Sea and waters. The goal of BlueMissionMed is to support, connect and structure existing initiatives and activities, disseminate and upscale transformative innovative solutions, and mobilise and synergize relevant actors.
Target	National stakeholders from BlueMissionMed National and Regional HUBs and European and
participants	international key actors, from Policy, Business, Research & Innovation and Civil Society.
	The workshop will focus mainly on the indicated priorities of preventing and eliminating
	pollution of our oceans, seas and waters;
Sectoral	implementation of circular and bio-based solutions to prevent pollution in natural
priority	environments
	reduce marine plastic pollution at the city level
	circular solutions for fishing nets

EVENT AGENDA

(We kindly ask you to connect 10 minutes before to avoid any technical problems.) Opening Speeches • Master of the Ceremony: Mustafa YUCEL, Deputy Director of METU Institute of Marine Sciences, METU BlueMissionMed Turkey Partner, Hub Representative • Barış SALIHOGLU, Director of METU Institute of Marine Sciences, BlueMed GSO Member, Hub Representative Session 1: Showcase of National and International Mediterranean Practices Towards "Prevention and Elimination of Pollution" Presentation of transformative innovative solutions selected to respond to specific Türkiye territory and needs will be showcased. Please note that some of the presentations will be held in English and there will be a Turkish translation option. • Thomais VLACHOGIANNI, MIO-ECDE, "A holistic zero pollution framework" SOSZEROPOL2030 • Abhilash VENKATESHAIAH, EDEN TECH; "Microfluidic remediation of water" iMERMAID and "Microplastics removal from WWTPs with ASCANDRA microfluid technology" UPSTREAM • Question & Answer • Mehmet DILAVER, TUBITAK Marmara Research Center, "Chemical pollution remediation technologies based on micro-algae solutions" RHE-MEDiation

Session 2: "Mobilisation and Mutual Learning"
Engaging stakeholders to act on the outcomes of tailored transformative solutions for
the Oceans and Waters subscription: communicative discussion to co-create regional
implementation roadmaps (Mentimeter)
• Facilitators: Ezgi SAHIN and Pınar UYGURER, METU Marine Sciences Institute
Help us understand the barriers, resistances, opportunities, and facilitators to cells o
waterproofing reduction. Key questions:
Are you interested in implementing this solution?
What obstacles or resistance do you think this solution will encounter?
What kinds of opportunities or enablers will make the solution successful?
As a stakeholder, what do you need to better implement this solution?
16:30-16:45 Closing and Future Steps

- Mustafa YUCEL, Deputy Director of METU Institute of Marine Sciences, METU BlueMissionMed Turkey Partner, Hub Representative
- Barış SALIHOGLU, Director of METU Institute of Marine Sciences, BlueMed GSO Member, Hub Representative
